

Here at BPI Media Group in our Prepress Department we have a complete pdf-to-pdf workflow. We use Kodak's Prinergy Connect workflow. The following pages will walk you through making a high resolution pdf file from InDesign CS4.

- Using the Adobe PDF Preset PDF/X-4:2008 will keep your transparencies from flattening.
- On page 4 are our standards for marks and bleeds.
- On page 5 there are color conversions that can happen. Make sure you have no color conversions chosen.

If you have problems or questions please contact your salesperson or customer service representative to get more information.
